7. [REDACTED] LIAISON Frank Slatinshek, House Armed Services Committee staff, stated that he had been cornered by Representative Burt Talcott (R., Calif.) concerning foreign countries producing uranium from U.S. phosphate. I checked for Slatinshek and reported back to him that the production of uranium from phosphate rock is very expensive and only one country is known to have ever attempted it, Israel. Slatinshek also asked if we could provide him some graphic assistance in producing the Committee report on his trip to China. I said we would try to be helpful when he could outline to us what it is he wants.
